EXPERIENCE

Data Analyst

PWAN Premium Realtors & Concerns LTD

03/2025 - Present

- Built internal reporting tools and automated workflows for sales, customer, and operations teams supporting 20+ staff.
- Delivered 50+ dashboards and reporting views, with SQL, Google Sheets, and Apps Script integrations for shared data and recurring updates.
- Automated scheduled reporting and data refresh workflows, reducing manual spreadsheet work by 60-70%.
- Coordinated technical requirements, data-handling standards, and user documentation across business teams.

Freelance Data Analyst | Reporting, Automation & Client Support

Upwork & Fiverr

06/2022 - Present

- Delivered analytics, reporting, and automation assignments across a broader freelance practice; developed web and workflow tools during the past 2 years.
- Built Python and Apps Script utilities for file handling, data cleanup, report generation, and repeatable business processes.
- Produced client walkthroughs and handover documentation, supporting clear communication from requirements through delivery.
- Worked with clients to clarify requirements, incorporate feedback, and document deliverables for ongoing use.
